

Life Changing Smiles

Happy St. Patty's Day!

May your blessings outnumber

The shamrocks that grow,

And may trouble avoid you

Wherever you go.

~Irish Blessing

Is Snoring Keeping You Up?

Many adults and children have Obstructive Sleep Apnea or snore. Snoring is never normal in children. If a child snores they may have OSA.

There are many co-morbidities associated with OSA, from accidents to heart problems. So it is important to seek medical advice about OSA. At Seuss Orthodontics we have been improving the lives of people with OSA/Snoring for decades. Many times when a person uses a CPAP machine it can be replaced with an oral device, which patients, and their bed partners, prefer. Call our office today for more information. This is just one more way Seuss Orthodontics is improving *Smiles* and the *Lives* of children and adults while they sleep!

ATTENTION HIGH SCHOOL SENIORS!

Are you a past or present patient who is graduating high school and planning to further your education this fall?

Dr. Seuss is offering two **\$500** Scholarships.

Here are requirements:

- Must be a graduating senior (may be home schooled)
- Must include your senior photo (digitally transmitted)
- Must be attending an educational institution in the fall (college, tech school, etc.)
- Must submit an essay in 250 words or less on the following topic:

How did orthodontics change your life? Include your perceptions, thoughts and feelings before braces, during braces and after your braces were removed.

Please send your entry to Jenifer@DrSeussOrtho.com by Wednesday, April 25, 2018.

The winners will be announced Monday, April 30, 2018.
